

## MANUFACTURERS' REPRESENTATIVE "Wireless Solutions"

---

Advanced battery test equipment, battery analyzers and conditioning chargers.

CSI provides products and Services that enable indoor wireless connectivity for the Public Safety sector. CSI offers 700/800 MHz Signal Boosters, Digital Repeaters, BDA's and In-Line Boosters.

EXFO, offers a wide range of innovative solutions to assess optical networks, from the core to access, as well as next-generation IP infrastructures and related triple-play services.

Digital Mobile Video and Audio Surveillance Systems, DVR's, Cameras, Wireless Mics, Wireless Modems, Rearview Mirror Camera, GPS and Network Monitoring Software

GPS Based Configurable Precision Time & Frequency Systems (SAASM available), GPS Engines and Network Time Servers (NTPSync). **(Includes Public Safety Northern CA)**

Land Mobile products are designed for government, industry, and business use. They provide two-way radio communications for police, fire, and other public safety agencies, as well as for security, construction, retail, manufacturing, and other industries. Products range from small hand-held radios, to vehicle-mounted mobile radios, base station equipment, and complete communications systems.

Provides affordable, effective public safety and commercial interoperability solutions utilizing multiple radios. NCS-C250, QuickLinx P and QuickLinx M.

To keep the communications backbone of mobile radio technology running, powerful mobile radio networks are needed. For the complex measurements involved, Rohde & Schwarz offers a wide range of instruments and systems such as wireless device testers, infrastructure testers, protocol testers, conformance and preformance testers.

Provides Antennas, Filters, Duplexers, Multicouplers, Combiners & Systems for communications systems.

Steelhead supplies lattice towers, concealment poles/monopoles and custom designs to the wireless telephone carriers, the power utilities and various DOTs as well as custom steel design and fabrication

Intelligent Instruments for RF Test and Measurement. On location and portable PIM test solutions. OASIS Spectrum Monitoring software featuring: RF Drive Test, Direction Finding, Site Surveys and Spectrum Recording.

LMR® Flexible Communications Coax, LMR® LLPL Plenum Rated UL/CSA, nu-TRAC™ Triaxial Antenna Cable, high quality connectors and Silverline Test Cables. **NEW – Times Protect lightning Protection (Southern CA & Southern NV only)**

Times Fiber designs and manufactures fiber optic cable, cable assemblies, connectors, splitters and fiber management products. Als 75 ohm cable and cable assemblies. **(Southern CA & Southern NV only)**
